Road Surface	Erosion and pothole of asphalt and concrete cover over concrete deck reinforcing bars. Subsequent paving has been completed to protect remains of deck and reinforcing bars and to improve road surface irregularities.
Girders	Two of the outside girders both have severe section loss in the bearing area located over the north and south abutments. The section losses and the holes are most severe directly above the seat.

DESCRIBE THE PROBLEM: The bridge is a single span multi-girder concrete deck bridge on concrete abutments. Among the five girders (WF24 x 94), G1 (begin) and G5 (begin and end) have severe section loss to the webs in the bearing area. The bottom flanges and the lowest part of the webs are partially embedded in a tapered concrete cap on the seat which slopes down toward the face of the stem. The section losses and all holes are most severe directly above the seat.

Girder G1 over the begin abutment and G5 over both abutments have severe web section loss in the

bottom ¼ of the web height. At girders G1, there is one long hole (48" x 2") just above the concrete embedment. The average section loss for web bearing is 77% over the entire seat. The average full height web loss is approximately 30%.

At girder G5, there are two holes in the web just above the concrete embedment, the average section loss at the begin abutment for web-bearing is 55% over the entire seat depth. The average full height web loss is approximately 34%. At the end abutment, the web of girder G5 has approximately 50% section loss above the seat. The average full height web loss is approximately 20%.

The affected members are load-path redundant, rolled steel girders without bearing stiffeners, in a single span 5-girder system. The web section losses at the lower bearing areas could result in web distortion and/or web crippling.

Undermining has also been previously reported in past bridge inspections under both the north and south abutments.

DESCRIBE PROJECT OBJECTIVE: The project objective is to replace the existing deteriorating single span steel multi-beam concrete deck bridge on concrete abutments with a new single span bridge to carry both vehicles and pedestrians along Walsh Road over the Quassaick Creek.

DESCRIBE THE PROJECT: The project involves the complete replacement of the existing structure that carries Walsh Road over the Quassaick Creek in the City of Newburgh, Orange County. Design features and standards for the project include bridge substructure and superstructure replacement, surface restoration (asphalt and vegetative), pedestrian sidewalk accommodations, drainage facilities restoration and life cycle cost considerations in selection of replacement bridge.

WHEREAS, Highway Law §80-b authorizes the funding of eligible costs of Federal aid Municipal/Sponsor streets and highway projects using State-aid and Federal aid; and

NOW, THEREFORE, the parties agree as follows:

1. *Documents Forming this Agreement.* The Agreement consists of the following:

- Agreement Form - this document titled "Federal Aid Local Project Agreement";
- Schedule "A" - Description of Project phase, Funding and Deposit Requirements;
- Schedule "B" - Phases, Subphase/Tasks, and Allocation of Responsibility
- Appendix "A" - Standard Clauses for New York State Contracts
- Appendix "A-1" – Supplemental Title VI Provisions (Civil Rights Act)
- Appendix "B" – U.S. government Required Clauses
- Municipal/Sponsor Resolution(s) – duly adopted Municipal/Sponsor resolution authorizing the appropriate Municipal/Sponsor official to execute this Agreement on behalf of the Municipality/Sponsor and appropriating the funding required therefore.

2. *General Description of Work and Responsibility for Administration and Performance.* Subject to the allocations of responsibility for administration and performance thereof as shown in Schedule B (attached), the work of the Project may consist generally of the categories of work marked and described in Schedule B for the scope and phase in effect according to Schedule A (attached) or one or more Supplemental Schedule(s) A as may hereafter be executed and approved by the parties hereto as required for a State contract, and any additions or deletions made thereto by NYSDOT subsequent to the development of such Schedule(s) A for the purposes of conforming to New York State or to Federal Highway Administration requirements.

The Municipality/Sponsor understands that funding is contingent upon the Municipality/Sponsor's compliance with the applicable requirements of the Procedures for Locally Administered Federal Aid Projects (PLAFAP) Manual (available through NYSDOT's web site at: <https://www.dot.ny.gov/plafap>, and as such may be amended from time to time.

3. *Municipal/Sponsor Deposit.* Where the work is performed by consultant or construction contract entered by NYSDOT, or by NYSDOT forces, and unless the total non-Federal share of the Project phase is under \$5,000, the Municipality/Sponsor shall deposit with the State Comptroller, prior to the award of NYSDOT's contract or NYSDOT's performance of work by its own forces, the full amount of the non-Federal share of the Project costs due in accordance with Schedule A.

4. *Payment or Reimbursement of Costs.* For work performed by NYSDOT, NYSDOT will directly apply Federal aid and the required Municipal/Sponsor Deposit for the non-Federally aided portion, and, if applicable, shall request State Comptroller funding of Marchiselli aid to the Municipality/Sponsor as described below. For work performed by or through the Municipality/Sponsor, NYSDOT will reimburse the Municipality/Sponsor with Federal aid and, if applicable, Marchiselli aid as described below. NYSDOT will make reimbursements periodically upon request and certification by the Sponsor. The frequency of billing must be in conformance with that stipulated in the *NYSDOT Standard Specifications; Construction and Materials (section 109-06, Contract Payments)*. NYSDOT recommends that bills not be submitted more frequently than monthly for a typical project. In all cases, bills must be submitted at least once every six months.

4.1. *Federal Aid.* NYSDOT will administer Federal funds for the benefit of the Municipality /Sponsor for the Federal share and will fund the applicable percentage designated in Schedule A of Federal-aid participating costs incurred in connection with the work covered by this Agreement, subject to the limitations set forth on Schedule A. For work performed by or through the Municipality/Sponsor, NYSDOT will reimburse Federal-aid-eligible expenditures in accordance with NYSDOT policy and procedures.

4.1.1 *Participating Items.* NYSDOT shall apply Federal funds only for that work and those items that are eligible for Federal participation under Title 23 of U.S. code, as amended, that requires Federal-aid-eligible projects to be on the Federal Aid Highway System ("FAHS"), except for bridge and safety projects that can be off the FAHS. Included among the Federal participating items are the actual cost of employee personal services, and leave and fringe benefit additives. Other participating costs include materials and supplies, equipment use charges or other Federal Participating costs directly identifiable with the eligible project.

4.2. *Marchiselli Aid (if applicable).* NYSDOT will request State Comptroller reimbursement to the Municipality/Sponsor of the upset amount and designated percentage in Schedule A of the non-overmatched non-Federal share of Federal participating cost, (the "State share"), incurred in connection with the work covered by this Agreement, subject to the limitations set forth in Schedule A. Not all Federal-aid-eligible participating costs are eligible for Marchiselli aid. Only "Eligible Project Costs" (as defined in Marchiselli Program instructions issued by NYSDOT) incurred after April 1, 1991 are reimbursable.

4.2.1 *Marchiselli Eligible Project Costs.* To be eligible for Marchiselli Aid Project costs must: (a) be eligible for Federal participation as described under '4.1; (b) be for work which, when completed, has a certifiable service life of at least 10 years; and (c) be for a work type that relates directly and exclusively to a municipally-owned highway, bridge or highway-railroad crossing off the State Highway System.

4.3. In no event shall this Agreement create any obligation to the Municipality/Sponsor for funding or reimbursement of any amount in excess of:

- (a) the amount stated in Schedule A for the Federal Share or;
- (b) the amount stated in Schedule A as the State (Marchiselli) share or the amount stated in the Comprehensive List, whichever is lower.

4.4. All items included by the Municipality/Sponsor in the record of costs shall be in conformity with accounting procedures acceptable to NYSDOT and the FHWA. Such items shall be subject to audit by the State, the federal government or their representatives.

4.5. If Project-related work is performed by NYSDOT, NYSDOT will be paid for the full costs thereof. To effect such payment, the reimbursement to the Municipality/Sponsor provided for in sections 4.1 and 4.2 above may be reduced by NYSDOT by the amounts thereof in excess of the Municipal/Sponsor Deposit available for such payment to NYSDOT.

5. *Supplemental Agreement or Supplemental Schedule A.* Supplemental Agreements or Supplemental Schedule(s) A may be entered into by the parties, and must be executed and approved in the manner required for a State contract. A Supplemental Schedule A is defined as a Supplemental Agreement which revises only the Schedule A of a prior Agreement or Supplemental Agreement. In the event Project cost estimates increase over the amounts provided for in Schedule A, no additional reimbursement shall be due to the Municipality/Sponsor unless the parties enter into a Supplemental Agreement or Supplemental Schedule A for reimbursement of additional Eligible Project Costs.

6. *State Recovery of Ineligible Reimbursements.* NYSDOT shall be entitled to recover from the Municipality/Sponsor any monies paid to the Municipality/Sponsor pursuant to this Agreement which are subsequently determined to be ineligible for Federal Aid or Marchiselli Aid hereunder.

7. *Loss of Federal Participation.* In the event the Municipality/Sponsor withdraws its approval of the project, suspends or delays work on the Project or takes other action that results in the loss of Federal participation for the costs incurred pursuant to this Agreement, the Municipality/Sponsor shall refund to the State all reimbursements received from the State, and shall reimburse the State for 100% of all preliminary engineering and right-of-way incidental costs incurred by NYSDOT. The State may offset any other State or Federal aid due to the Municipality/Sponsor by such amount and apply such offset to satisfy such refund.

8. *Municipal/Sponsor Liability.*

8.1 If the Municipality/Sponsor performs work under this Agreement with its own forces, it shall be responsible for all damage to person or property arising from any act or negligence performed by or on behalf of the Municipality/Sponsor, its officers, agents, servants or employees, contractors, subcontractors or others in connection therewith. The Municipality/Sponsor specifically agrees that its agents or employees shall possess the experience, knowledge and character necessary to qualify them individually for the particular duties they perform.

8.2 The Municipality/Sponsor shall indemnify and save harmless the State for all damages and costs arising out of any claims, suits, actions, or proceedings resulting from the negligent performance of work by or on behalf of the Municipality/Sponsor its officers, agents, servants, employees, contractors, subcontractors or others under this Agreement. Negligent performance of service, within the meaning of this section, shall include, in addition to negligence founded upon tort, negligence based upon the Municipality/Sponsor's failure to meet professional standards and resulting in obvious or patent errors in the progression of its work.

8.3 The Municipality/Sponsor shall at all times during the Contract term remain responsible. The Municipality/Sponsor agrees, if requested by the Commissioner of Transportation or his or her designee, to present evidence of its continuing legal authority to do business in New York State, integrity, experience, ability, prior performance, and organization and financial capacity.

8.4 The Commissioner of Transportation or his or her designee, in his or her sole discretion, reserves the right to suspend any or all activities under this contract, at any time, when he or she discovers information that calls into question the responsibility of the Municipality/Sponsor. In the event of such suspension, the Municipality/Sponsor will be given written notice outlining the particulars of such suspension. Upon issuance of such notice, the Municipality/Sponsor must comply with the terms of the suspension order. Contract activity may resume at such time as the Commissioner of Transportation or his or her designee issues a written notice authorizing a resumption of performance under the Contract.

8.5 Upon written notice to the Municipality/Sponsor, and a reasonable opportunity to be heard with appropriate Department of Transportation officials or staff, the Contract may be terminated by the Commissioner of Transportation or his or her designee at the Municipality's/Sponsor's expense where the Municipality/Sponsor is determined by the Commissioner of Transportation or his or her designee to be non-responsible. In such event, the Commissioner of Transportation or his or her designee may complete the contractual requirements in any manner he or she may deem advisable and pursue available legal or equitable remedies for breach.

9. *Maintenance.* The Municipality/Sponsor shall be responsible for the maintenance of the project at the sole cost and expense of the Municipality/Sponsor. If the Municipality/Sponsor intends to have the project maintained by another, any necessary maintenance Agreement will be executed and submitted to NYSDOT before construction of the Project is begun. Upon its completion, the Municipality/Sponsor will operate and maintain the Project at no expense to NYSDOT; and during the useful life of the Project the Municipality/Sponsor shall not discontinue operation and maintenance of the Project, nor dispose of the Project, unless it receives prior written approval to do so from NYSDOT.

9.1 The Municipality/Sponsor may request such approved disposition from NYSDOT where the Municipality/Sponsor either causes the purchaser or transferee to assume the Municipality/Sponsor's continuing obligations under this Agreement, or agrees immediately to reimburse NYSDOT for the pro-rata share of the funds received for the project, plus any direct costs incurred by NYSDOT, over the remaining useful life of the Project.

9.2 If a Municipality/Sponsor fails to obtain prior written approval from NYSDOT before discontinuing operation and maintenance of the Project or before disposing of the project, in addition to the costs provided, above in 9.1, Municipality/Sponsor shall be liable for liquidated damages for indirect costs incurred by NYSDOT in the amount of 5% of the total Federal and non-Federal funding provided through NYSDOT.

9.3 For NYSDOT-administered projects, NYSDOT is responsible for maintenance only during the NYS administered construction phase. Upon completion of the construction phase, the Municipality/Sponsor/s maintenance obligations start or resume.

10. *Independent Contractor.* The officers and employees of the Municipality/Sponsor, in accordance with the status of the Municipality/Sponsor as an independent contractor, covenant and agree that they will conduct themselves consistent with such status, that they will neither hold themselves out as, nor claim to be an officer or employee of the State by reason hereof, and that they will not by reason hereof, make any claim, demand or application to or for any right or privilege applicable to an officer or employee of the State, including, but not limited to, Workers Compensation coverage, Unemployment Insurance benefits, Social Security or Retirement membership or credit.

11. *Contract Executory; Required Federal Authorization.* It is understood by and between the parties hereto that this Agreement shall be deemed executory only to the extent of the monies available to the State and no liability on account thereof shall be incurred by the State beyond monies available for the purposes hereof. No phase of work for the project shall be commenced unless and until NYSDOT receives authorization from the Federal government.

12. *Assignment or Other Disposition of Agreement.* The Municipality/Sponsor agrees not to assign, transfer, convey, sublet or otherwise dispose of this Agreement or any part thereof, or of its right, title or interest therein, or its power to execute such Agreement to any person, company or corporation without previous consent in writing of the Commissioner.

13. *Term of Agreement.* As to the Project and phase(s) described in Schedule A executed herewith, the term of this Agreement shall begin on the date of this Agreement as first above written. This Agreement shall remain in effect so long as Federal aid and Marchiselli aid funding authorizations are in effect and funds are made available pursuant to the laws controlling such authorizations and availabilities. However, if such authorizations or availabilities lapse and are not renewed, continued or reenacted, as to funds encumbered or available and to the extent of such encumbrances or availabilities, this Agreement shall remain in effect for the duration of such encumbrances or availabilities. Although the liquidity of encumbrances or the availability of funds may be affected by budgetary hiatuses, a Federal or State budgetary hiatus will not by itself be construed to cause a lapse in this Agreement, provided any necessary Federal or State appropriations or other funding authorizations therefore, are eventually enacted.

14. *NYSDOT Obligations.* NYSDOT's responsibilities and obligations are as specifically set forth in this contract, and neither NYSDOT nor any of its officers or employees shall be responsible or liable, nor shall the Municipality/Sponsor assert, make, or join in any claim or demand against NYSDOT, its officers or employees, for any damages or other relief based on any alleged failure of NYSDOT, its officers or employees, to undertake or perform any act, or for undertaking or performing any act, which is not specifically required or prohibited by this Agreement.

15. *Offset Rights.* In addition to any and all set-off rights provided to the State in the attached and incorporated Appendix A, Standard Clauses for New York Contracts, NYSDOT shall be entitled to recover and offset from the Municipality/Sponsor any ineligible reimbursements and any direct or indirect costs to the State as to paragraph 6 above, as well as any direct or indirect costs incurred by the State for any breach of the term of this agreement, including, but not limited to, the useful life requirements in paragraph 9 above. At its sole discretion NYSDOT shall have the option to permanently withhold and offset such direct and indirect cost against any monies due to the Municipality/Sponsor from the State of New York for any other reason, from any other source, including but not limited to, any other Federal or State Local Project Funding, and/or any Consolidated Highway and Local Street Improvement Program (CHIPS) funds.

16. *Reporting Requirements.* The Municipality/Sponsor agrees to comply with and submit to NYSDOT in a timely manner all applicable reports required under the provisions of this Agreement, the "Procedures for Locally Administered Federal Aid Projects" manual and in accordance with current Federal and State laws, rules, and regulations.

17. *Notice Requirements.*

- The project involves the complete replacement of the existing structure that carries Walsh Road over the Quassaick Creek in the City of Newburgh, Orange County. Design features and standards for the project include bridge substructure and superstructure replacement, surface restoration (asphalt and vegetative), pedestrian sidewalk accommodations, drainage facilities restoration and life cycle cost considerations in selection of replacement bridge.
- At this time the non-federal share of Project costs identified for federal aid funding in this agreement is to be provided entirely by the Municipality. No subsidy or reimbursement of any portion of that local match is provided by New York State's Marchiselli Program or this contract at this time. Furthermore, this Agreement does not assure that any Marchiselli aid for the Project or phase hereunder will be authorized or available in the future. If the Project (and the phase of work) is eligible for State aid under the Marchiselli Program, and such aid is duly requested by the Municipality, NYSDOT may (subject to budgetary requirements) submit an appropriate request for Marchiselli funding authorization by the Legislature. If Legislative authorization for such funding is received, NYSDOT and the Municipality may enter a supplemental agreement providing such Marchiselli aid. Only then would Marchiselli aid be available to the affected Project and phase

STANDARD CLAUSES FOR NYS CONTRACTS

The parties to the attached contract, license, lease, amendment or other agreement of any kind (hereinafter, "the contract" or "this contract") agree to be bound by the following clauses which are hereby made a part of the contract (the word "Contractor" herein refers to any party other than the State, whether a contractor, licensor, licensee, lessor, lessee or any other party):

1. EXECUTORY CLAUSE. In accordance with Section 41 of the State Finance Law, the State shall have no liability under this contract to the Contractor or to anyone else beyond funds appropriated and available for this contract.

2. NON-ASSIGNMENT CLAUSE. In accordance with Section 138 of the State Finance Law, this contract may not be assigned by the Contractor or its right, title or interest therein assigned, transferred, conveyed, sublet or otherwise disposed of without the State's previous written consent, and attempts to do so are null and void. Notwithstanding the foregoing, such prior written consent of an assignment of a contract let pursuant to Article XI of the State Finance Law may be waived at the discretion of the contracting agency and with the concurrence of the State Comptroller where the original contract was subject to the State Comptroller's approval, where the assignment is due to a reorganization, merger or consolidation of the Contractor's business entity or enterprise. The State retains its right to approve an assignment and to require that any Contractor demonstrate its responsibility to do business with the State. The Contractor may, however, assign its right to receive payments without the State's prior written consent unless this contract concerns Certificates of Participation pursuant to Article 5-A of the State Finance Law.

3. COMPTROLLER'S APPROVAL. In accordance with Section 112 of the State Finance Law (or, if this contract is with the State University or City University of New York, Section 355 or Section 6218 of the Education Law), if this contract exceeds \$50,000 (or the minimum thresholds agreed to by the Office of the State Comptroller for certain S.U.N.Y. and C.U.N.Y. contracts), or if this is an amendment for any amount to a contract which, as so amended, exceeds said statutory amount, or if, by this contract, the State agrees to give something other than money when the value or reasonably estimated value of such consideration exceeds \$10,000, it shall not be valid, effective or binding upon the State until it has been approved by the State Comptroller and filed in his office. Comptroller's approval of contracts let by the Office of General Services is required when such contracts exceed \$85,000 (State Finance Law Section 163.6-a). However, such pre-approval shall not be required for any contract established as a centralized contract through the Office of General Services or for a purchase order or other transaction issued under such centralized contract.

4. WORKERS' COMPENSATION BENEFITS. In accordance with Section 142 of the State Finance Law, this contract shall be void and of no force and effect unless the Contractor shall provide and maintain coverage during the life of this contract for the benefit of such employees as are required to be covered by the provisions of the Workers' Compensation Law.

5. NON-DISCRIMINATION REQUIREMENTS. To the extent required by Article 15 of the Executive Law (also known as the Human Rights Law) and all other State and Federal statutory and constitutional non-discrimination provisions, the Contractor will not discriminate against any employee or applicant for employment because of race, creed, color, sex (including gender identity or expression), national origin, sexual orientation, military status, age, disability, predisposing genetic characteristics, marital status or domestic violence victim status. Furthermore, in accordance with Section 220-e of the Labor Law, if this is a contract for the construction, alteration or repair of any public building or public work or for the manufacture, sale or distribution of materials, equipment or supplies, and to the extent that this contract shall be performed within the State of New York, Contractor agrees that neither it nor its subcontractors shall, by reason of race, creed, color, disability, sex, or national origin: (a) discriminate in hiring against any New York State citizen who is qualified and available to perform the work; or (b) discriminate against or intimidate any employee hired for the performance of work under this contract. If this is a building service contract as defined in Section 230 of the Labor Law, then, in accordance with Section 239 thereof, Contractor agrees that neither it nor its subcontractors shall by reason of race, creed, color, national origin, age, sex or disability: (a) discriminate in hiring against any New York State citizen who is qualified and available to perform the work; or (b) discriminate against or intimidate any employee hired for the performance of work under this contract. Contractor is subject to fines of \$50.00 per person per day for any violation of Section 220-e or Section 239 as well as possible termination of this contract and forfeiture of all moneys due hereunder for a second or subsequent violation.

6. WAGE AND HOURS PROVISIONS. If this is a public work contract covered by Article 8 of the Labor Law or a building service contract covered by Article 9 thereof, neither Contractor's employees nor the employees of its subcontractors may be required or permitted to work more than the number of hours or days stated in said statutes, except as otherwise provided in the Labor Law and as set forth in prevailing wage and supplement schedules issued by the State Labor Department. Furthermore, Contractor and its subcontractors must pay at least the prevailing wage rate and pay or provide the prevailing supplements, including the premium rates for overtime pay, as determined by the State Labor Department in accordance with the Labor Law. Additionally, effective April 28, 2008, if this is a public work contract covered by Article 8 of the Labor Law, the Contractor

understands and agrees that the filing of payrolls in a manner consistent with Subdivision 3-a of Section 220 of the Labor Law shall be a condition precedent to payment by the State of any State approved sums due and owing for work done upon the project.

7. NON-COLLUSIVE BIDDING CERTIFICATION. In accordance with Section 139-d of the State Finance Law, if this contract was awarded based upon the submission of bids, Contractor affirms, under penalty of perjury, that its bid was arrived at independently and without collusion aimed at restricting competition. Contractor further affirms that, at the time Contractor submitted its bid, an authorized and responsible person executed and delivered to the State a non-collusive bidding certification on Contractor's behalf.

8. INTERNATIONAL BOYCOTT PROHIBITION. In accordance with Section 220-f of the Labor Law and Section 139-h of the State Finance Law, if this contract exceeds \$5,000, the Contractor agrees, as a material condition of the contract, that neither the Contractor nor any substantially owned or affiliated person, firm, partnership or corporation has participated, is participating, or shall participate in an international boycott in violation of the federal Export Administration Act of 1979 (50 USC App. Sections 2401 et seq.) or regulations thereunder. If such Contractor, or any of the aforesaid affiliates of Contractor, is convicted or is otherwise found to have violated said laws or regulations upon the final determination of the United States Commerce Department or any other appropriate agency of the United States subsequent to the contract's execution, such contract, amendment or modification thereto shall be rendered forfeit and void. The Contractor shall so notify the State Comptroller within five (5) business days of such conviction, determination or disposition of appeal (2NYCRR 105.4).

9. SET-OFF RIGHTS. The State shall have all of its common law, equitable and statutory rights of set-off. These rights shall include, but not be limited to, the State's option to withhold for the purposes of set-off any moneys due to the Contractor under this contract up to any amounts due and owing to the State with regard to this contract, any other contract with any State department or agency, including any contract for a term commencing prior to the term of this contract, plus any amounts due and owing to the State for any other reason including, without limitation, tax delinquencies, fee delinquencies or monetary penalties relative thereto. In the event such certification is found to be intentionally false or intentionally incomplete, the State may terminate the agreement by providing written notification to the Contractor in accordance with the terms of the agreement.

25. CERTIFICATION OF REGISTRATION TO COLLECT SALES AND COMPENSATING USE TAX BY CERTAIN STATE CONTRACTORS, AFFILIATES AND SUBCONTRACTORS.

To the extent this agreement is a contract as defined by Tax Law Section 5-a, if the contractor fails to make the certification required by Tax Law Section 5-a or if during the term of the contract, the Department of Taxation and Finance or the covered agency, as defined by Tax Law 5-a, discovers that the certification, made under penalty of perjury, is false, then such failure to file or false certification shall be a material breach of this contract and this contract may be terminated, by providing written notification to the Contractor in accordance with the terms of the agreement, if the covered agency determines that such action is in the best interest of the State.

26. IRAN DIVESTMENT ACT. By entering into this Agreement, Contractor certifies in accordance with State Finance Law §165-a that it is not on the "Entities Determined to be Non-Responsive Bidders/Offerers pursuant to the New York State Iran Divestment Act of 2012" ("Prohibited Entities List") posted at:

Contractor also agrees that any proposed Assignee of this Contract will be required to certify that it is not on the Prohibited Entities List before the contract assignment will be approved by the State.

During the term of the Contract, should the state agency receive information that a person (as defined in State Finance Law §165-a) is in violation of the above-referenced certifications, the state agency will review such information and offer the person an opportunity to respond. If the person

fails to demonstrate that it has ceased its engagement in the investment activity which is in violation of the Act within 90 days after the determination of such violation, then the state agency shall take such action as may be appropriate and provided for by law, rule, or contract, including, but not limited to, imposing sanctions, seeking compliance, recovering damages, or declaring the Contractor in default.

The state agency reserves the right to reject any bid, request for assignment, renewal or extension for an entity that appears on the Prohibited Entities List prior to the award, assignment, renewal or extension of a contract, and to pursue a responsibility review with respect to any entity that is awarded a contract and appears on the Prohibited Entities list after contract award.

APPENDIX B
REQUIREMENTS FOR FEDERALLY-AIDED TRANSPORTATION PROJECTS
(June 2016)

There is a substantial body of requirements attached to the use of Federal highway or transportation aid. These requirements create or overlay processes, procedures, documentation requirements, authorizations, approvals and certifications that may be substantially greater or different from those that are not funded with Federal-aid and proceed under applicable State and local laws, customs and practices. Under Title 23 of the United States Code, the New York State Department of Transportation (NYSDOT) is responsible for the administration of transportation projects in New York State to which NYSDOT provides Federal highway or transportation-related aid. Through this Agreement, which provides or is associated with such funding, NYSDOT delegates various elements of project and funding administration as described elsewhere in this Agreement. In undertaking a Federally aided project, the Municipality/Sponsor, Authority or Project Manager designated under this Agreement with Federal-aid funding or project administration agrees to proceed in compliance with all the applicable Federal-aid requirements.

NYSDOT, in cooperation with FHWA, has assembled the body of Federal-aid requirements, procedures and practices in its Procedures for Locally Administered Federal-Aid Projects Manual (available through NYSDOT's web site at: <http://www.dot.ny.gov/plafap>). In addition, the Municipality/Sponsor, Authority or Project Manager designated under this Agreement for Federal-aid funding or project administration that enters into Federally aided project construction contracts is required to physically incorporate into all its Federally aided construction contracts and subcontracts there under the provisions that are contained in Form FHWA-1273 (available from NYSDOT or electronically at: <http://www.fhwa.dot.gov/programadmin/contracts/1273.htm>).

In connection with the execution of this Agreement, the Municipality/Sponsors contractors or subcontractors shall not discriminate against any employee or applicant for employment because of race, religion, age, color, sex or national origin. As a sub-recipient under 49 CFR Part 26.13, the Municipality/Sponsor hereby makes the following assurance.

The New York State Department of Transportation's DBE program, as required by 49 CFR Part 26 and as approved by the United States Department of Transportation, is incorporated by reference in this agreement. Implementation of this program is a legal obligation and failure to carry out its terms shall be treated as a violation of this agreement. Upon notification to the recipient of its failure to carry out its approved program, the USDOT may impose sanctions as provided for under part 26 and may, in appropriate cases, refer the matter for enforcement under 18 U.S.C. 1001 and/or the Program Fraud Civil Remedies Act of 1986 (31 U.S.C. 3801 et seq.).

Re.: Brown's Pond House Demolition Project
Request for Proposal – Asbestos Abatement Monitoring & Management Services

Dear Mr. Morris,

Quality Environmental Solutions & Technologies, Inc. (QuES&T) is pleased to submit the attached proposal to provide subsequent Abatement Monitoring Services in support of abatement activities at 117 Moores Hill Road, New Windsor, NY.

QuES&T is a NYS Certified Minority Business Enterprise committed to remaining a leader in the environmental training and technical consulting industry. **QuES&T's** extensive Nuclear Power Industry experience makes us uniquely qualified to provide technical support in state-of-the-art techniques for engineering and contamination control. Additionally, this experience enables us to integrate the essential concepts of "critical path" schedules and minimizing personnel exposures while maintaining a high level of attention to the specific details of each project. **QuES&T** personnel satisfy numerous ANSI and NUREG experience requirements of the Nuclear Regulatory Commission. Our staff has served in various capacities in the Health Physics and Nuclear Engineering disciplines in operational power reactors, nuclear powered vessels, radio-pharmaceuticals and government prototypes.

We are confident you recognize that selection of a qualified technical consultant for professional services, such as pre-construction inspection, project design, project management and air monitoring, represents a step as critical as selecting a reputable environmental remediation contractor. **QuES&T** feels strongly that the success of any remediation project is defined primarily in the planning and design phase. A technically sound project design combined with proper oversight provides the most cost-effective solution and ensures the gains recognized are not at the expense of future liability to the City of Newburgh.

In this regard, **QuES&T** has successfully completed remediation projects, for our client companies, in support of Nuclear and Fossil commercial power plant maintenance outages, facility renovation and demolition, cGMP facility upgrades, recovery from contamination following catastrophic events (e.g. steam line explosions, fires), school building renovations,

Corporate asbestos management programs, facility Operations & Maintenance (O&M) programs, UST removals, sub-surface investigations, contaminated soil remediation, LBP stabilization and commercial/residential asbestos & lead abatements.

Technical consulting services are available in the area of regulatory compliance audits, OSHA safety, air monitoring, respiratory protection, laboratory services, building hazard assessments (EPA, HUD, commercial), LBP Risk Assessments, management plans, NYS/NESHAP pre-demolition inspections and full scope project management; including development of remediation response actions and management of all required project and personnel records. Our staff of experienced environmental professionals can prepare all required specifications and procedures to ensure your programs comply with federal, state and municipal regulatory requirements.

QuES&T offers a wide range of OSHA and environmental safety training. Our full range of asbestos safety certification training ensures that our client's employees receive the appropriate training to maximize their safety and minimize your liability. **QuES&T** offers accredited initial and refresher training programs for Operations & Maintenance (O&M), Asbestos Abatement Workers and Supervisors, Project Monitors, Asbestos Project Sampling Technicians (RH-II), Asbestos Project Designers, Asbestos Inspectors (RH-III) and Management Planners. Our accredited training facility (EPA, NYS) contains the most modern equipment to support the hands-on portion of each training program. On-site training services are available for groups of at least twenty-five students and can be tailored to meet the specific needs of the City of Newburgh.

QuES&T provides a full range of services in the area of Respiratory Protection. Our technical staff has extensive experience in the development of regulatory compliance programs for NUREG 0041 and OSHA 1910.134 Respiratory Protection Programs. Quantitative or qualitative respirator fit services can be provided at **QuES&T**'s facility or yours.

For every question in Part 2 that was answered “moderate to large impact may occur”, or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

There are no moderate to large environmental impacts presented by this project.

☐ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.	
☒ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

Part 3 - Evaluation of the Magnitude and Importance of Project Impacts

and

Determination of Significance

Part 3 provides the reasons in support of the determination of significance. The lead agency must complete Part 3 for every question in Part 2 where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.

Based on the analysis in Part 3, the lead agency must decide whether to require an environmental impact statement to further assess the proposed action or whether available information is sufficient for the lead agency to conclude that the proposed action will not have a significant adverse environmental impact. By completing the certification on the next page, the lead agency can complete its determination of significance.

Reasons Supporting This Determination:

To complete this section:

- Identify the impact based on the Part 2 responses and describe its magnitude. Magnitude considers factors such as severity, size or extent of an impact.
- Assess the importance of the impact. Importance relates to the geographic scope, duration, probability of the impact occurring, number of people affected by the impact and any additional environmental consequences if the impact were to occur.
- The assessment should take into consideration any design element or project changes.
- Repeat this process for each Part 2 question where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.
- Provide the reason(s) why the impact may, or will not, result in a significant adverse environmental impact
- For Conditional Negative Declarations identify the specific condition(s) imposed that will modify the proposed action so that no significant adverse environmental impacts will result.
- Attach additional sheets, as needed.

Soil suitability/slope/erosion/drainage/storm water runoff: The engineered plans identify storm water BMP's in conformity to the most recent edition of the New York State Stormwater Management Plan and appropriate erosion and sediment control in accordance with the most recent edition of the New York State Standards and Specifications for Erosion and Sediment Control.

Hazards and nuisances including site safety and noise: Minot increase in noise above ambient levels may occur during construction. There have been no public complaints about the pending construction noise. Post-construction noise levels are anticipated to be consistent with a park atmosphere.

Energy Consumption: There will likely be an increase in energy consumption during the construction period as equipment is utilized to grade the site and install the designed features.

Public safety: Contributing to the increased use of the park, the proposed action will likely increase the need for emergency services. No mitigation is proposed, and the public are overwhelmingly in favor of the encouraging the activity in a specific park area.

and considering both the magnitude and importance of each identified potential impact, it is the conclusion of the
City Council of the City of Newburgh, NY _____ as lead agency that:

☒ A. This project will result in no significant adverse impacts on the environment, and, therefore, an environmental impact statement need not be prepared. Accordingly, this negative declaration is issued.

☐ B. Although this project could have a significant adverse impact on the environment, that impact will be avoided or substantially mitigated because of the following conditions which will be required by the lead agency:

There will, therefore, be no significant adverse impacts from the project as conditioned, and, therefore, this conditioned negative declaration is issued. A conditioned negative declaration may be used only for UNLISTED actions (see 6 NYCRR 617.d).

☐ C. This Project may result in one or more significant adverse impacts on the environment, and an environmental impact statement must be prepared to further assess the impact(s) and possible mitigation and to explore alternatives to avoid or reduce those impacts. Accordingly, this positive declaration is issued.

Project Location: The Proposed Action is located within the Delano-Hitch Recreational Park, which is bound by Washington Street to the north, Robinson Avenue to the east, S. William Street to the south, and Lake Street to the west. The Newburgh Skatepark shall be constructed in the northwest corner of Delano-Hitch Recreation Park, generally near the intersection of Washington Avenue and Lake Street.

Description of the Proposed Project [24 CFR 50.12 & 58.32; 40 CFR 1508.25]: The intent of the proposed action is to re-use partially underutilized parkland as a skatepark, adding to the variety of amenities at Delano-Hitch Recreation Park.

Statement of Purpose and Need for the Proposal [40 CFR 1508.9(b)]: The purpose and need of the Proposed Action came about through outreach to the City by the local skateboard community. They identified limited safe locations, easily accessible, that are available to them.

In addition to the proposed Action, a no action alternative was reviewed. A no action alternative would leave the project location in its current, partially underutilized state. The potential minor benefits identified would be lost. Additionally, the funding allocated for the Proposed Action would be available for other HUD and CDBG projects. No other alternatives were reviewed as part of this Environmental Assessment.

In order to complete this Environmental Assessment, a number of sources were accessed. The sources are as follows: U.S. Fish and Wildlife Service, New York State Department of Environmental Conservation, HUD Exchange, New York State Office of Parks, Recreation & Historic Preservation, Protection Agency, National and Scenic Rivers System, Federal Emergency Management Agency. Additional detail is available below in the section *List of Sources, Agencies and Persons Consulted*.

Existing Conditions and Trends [24 CFR 58.40(a)]: Currently the part of Delano-Hitch Recreation Park slated for the development of Phase I of the skatepark consists of dilapidated unutilized horseshoe pits. The area slated for development of Phase II of the Skatepark consists of a play structure. The likely trend of the current areas, without the Proposed Action, would continue as it is today. Other than this project, there is no short-term or long-term plans to rehabilitate or re-use the area dedicated to this project.

13. In the event that a sale is cancelled by court order, judgment, the Comptroller or the Newburgh City Council, the successful bidder shall be entitled only to a refund of the purchase money paid with interest. Purchaser agrees that he shall not be entitled to special or consequential damages, attorney's fees, reimbursement for any expenses incurred as a result of ownership, improvements of property, or for taxes paid during period of ownership, and this agreement by the purchaser is a material condition of the sale.
14. Sale shall be final, absolute and without recourse once title has closed and the deed has been recorded. In no event, shall City of Newburgh be or become liable for any defects in title for any cause whatsoever, and no claim, demand or suit of any nature shall exist in favor of the purchaser, his heirs, successors or assigns, against City of Newburgh arising from this sale.

15. Conveyance shall be by quitclaim deed only, containing a description of the property as it appeared on the tax roll for the year upon which the City acquired title or as corrected up to date of deed. The deed will be recorded by the City upon payment in full of the purchase price, buyer's premium, and closing fees/costs. Possession of property is forbidden until the deed is recorded conveying title to the purchaser. **Title vests upon recording of deed.**
16. Upon closing, the City shall deliver a quitclaim deed conveying all of its right, title and interest in the subject property, which deed shall be drawn by the City Corporation Counsel. The City shall not convey its interest in any street, water, sewer or drainage easement, or any other interest the City may have in the property. The City shall only convey that interest obtained by the City pursuant to the judgment rendered in an *in rem* tax foreclosure action filed in the Orange County Clerk's Office.
17. The description of the property shall be from the City of Newburgh Tax Map reference or a survey description certified to the City of Newburgh and provided to the City Corporation Counsel by the purchaser at least thirty (30) days in advance of closing title and approved by the City's Engineer.
18. Evictions, if necessary, are solely the responsibility of the purchaser after closing and recording of the deed.
19. By acknowledging and executing these Terms & Conditions, the purchaser certifies that he/she is not representing the former owner(s) of the property against whom City of Newburgh foreclosed and has no intent to defraud City of Newburgh of the unpaid taxes, assessment, penalties and charges which have been levied against the property. The purchaser agrees that neither he/she nor his/her assigns shall convey the property to the former owner(s) against whom City of Newburgh foreclosed within 24 months subsequent to the auction date. If such conveyance occurs, the purchaser understands that he/she may be found to have committed fraud, and/or intent to defraud, and will be liable for any deficiency between the purchase price at auction and such sums as may be owed to City of Newburgh as related to the foreclosure on the property and consents to immediate judgment by City of Newburgh for said amounts.

WHEREAS, the Parties have met to discuss the implementation of the HVCAC; and

WHEREAS, the aforementioned MOU law enforcement agencies maintain law enforcement records management systems; and

WHEREAS, the mission of the HVCAC will be to analyze crime data provided to it by the Parties and make reports for the purpose of conducting crime analyses including tactical, strategic, and administrative analyses, distribution of

which reports will be determined by the HVCAC Board of Directors (hereinafter “Board”); and

WHEREAS, the Parties agree that information sharing is a priority of the HVCAC and appropriate datasets as identified by the Board should be shared with all law enforcement agencies who are authorized to the extent permitted by applicable law and/or regulation and this data should also be shared with the New York State Crime Analysis Data Sharing Network to allow for broad analysis of relevant information against data received from other law enforcement agencies statewide, and that sharing of data back to the HVCAC should be provided to assist in crime reduction.

NOW THEREFORE, in consideration of the mutual covenants contained herein, the Parties do agree as follows:

A. Board of Directors

1. The HVCAC Board shall consist of the Commissioner of DCJS, the District Attorneys of each of the counties being served by the HVCAC; the Sheriff of each of the counties being served by HVCAC; and the Chiefs of the Kingston, Newburgh, and Poughkeepsie City Police Departments. Board members may identify a designee to act for them, and vote on their behalf.
2. The Board shall meet at least once per quarter, and at any other time, if at least three of the members shall request.
3. Any Member of the Board may bring a matter before the Board for deliberation and determination. Decisions of the Board shall be approved by a majority vote of Board members present.

The Orange County District Attorney's Office will act as the "original host agency" with respect to HVCAC. DCJS shall not pay any part of the maintenance or upkeep of the HVCAC.
2. In the event that the HVCAC is relocated in the future, whichever governmental entity ("host agency") possesses the new site, shall provide the necessary space for the HVCAC including rent, utilities, maintenance, and cleaning services.
3. Subject to monies being available for such purposes, DCJS will provide for the necessary office furnishings and technology, including data systems, software and hardware, related professional services, and revisions and updates to existing systems for the effective operation of the HVCAC, and/or such other reasonable expenses related to HVCAC operations, as determined appropriate by DCJS. All furnishings and technology provided by DCJS shall remain the property of DCJS.
4. DCJS shall reimburse Orange County for expenses incurred by Orange County in connection with construction of the HVCAC located at 22 Wells Farm Rd, Goshen, NY to support the initial

construction of the HVCAC within the aforementioned facility. The amount of reimbursement by DCJS to Orange County **shall not exceed fifty thousand dollars (\$50,000)**. All work provided under this Agreement shall be approved by DCJS prior to commencement of the work. Orange County agrees to provide DCJS with copies of contracts and invoices for disbursements in connection with this Agreement to show that funds were spent as intended and approved. 6. The Parties agree that no party shall be liable to any other party for any incidental, consequential, nominal, compensatory, punitive, or any damages of any kind arising out of or in the course of performance in connection with this agreement. Contracting and labor to repair the Orange County Emergency Services Center, or any other location, will be procured, contracted, scheduled and managed by the respective host agency and DCJS shall not be responsible for any claims by employees or contractors of the originating host county (Orange County), or any other host agency county.

 4. DCJS, the Board and MOU law enforcement agencies agree that the purpose of the HVCAC is to prepare and produce crime analysis on a daily basis. In no event shall non-sworn personnel assigned to the HVCAC participate in tactical or operational decision-making in connection with any law enforcement agency activity.
 5. In the event that sworn law enforcement personnel assigned to the HVCAC are redeployed from their HVCAC assignment, the Parties agree that in no event shall non-sworn personnel assigned to the HVCAC, DCJS or any employee of DCJS, be liable in connection with any tactical or operational decision-making activities of sworn personnel when they are redeployed.
 6. DCJS, at its discretion, shall assign a Program Manager to the HVCAC. Any such individual will not be assigned exclusively to the HVCAC, but will be responsible for monitoring all the regional Crime Analysis Centers in New York State. The Program Manager shall report directly to the DCJS Deputy Commissioner of the Office of Public Safety and shall not be under the direction of the Board.
 7. The Parties to this MOU have the sole authority to discipline personnel it assigns to the HVCAC and to require personnel it assigns to adhere to its policy and procedures if those are in conflict with the HVCAC policies and procedures.
 8. Management and execution of activities necessary to performance by the Parties under this MOU shall be the responsibility of the HVCAC Director.

D. Information Sharing, Analyses and Reports:

1. The Parties agree to access, share, and exchange incident and arrest information and any future data that is mutually agreed upon from time to time that has been developed individually or collectively with other regional Law Enforcement Agencies including tactical, strategic and administrative analyses, and to compile and make available such reports to the extent that their operations permit, and as their management shall determine.
2. The Parties agree to provide for sharing of information, but in no way shall information sharing be construed or interpreted to reflect that any of the Parties is involved or responsible for implementing any operational activities resulting from produced analyses.
3. The Parties agree that any information shared with the HVCAC may be shared among regional law enforcement agencies unless specific restrictions are identified in writing at the time the information is provided to the HVCAC.
4. The Parties agree that the sharing and exchange of information contemplated under the terms of this Agreement shall be voluntary and without charge, fee or other consideration.
5. Participation of the Parties in this Agreement shall be contingent upon the availability of lawful appropriations therefore. In the event that such appropriation is not continued, the obligations of a Party so affected will terminate upon 30 calendar days written notice to all other Parties.
6. The Parties agree to maintain such security procedures as are mutually established.

E. Expiration of MOU

1. All provisions of this MOU with respect to liability shall survive the termination or expiration of this MOU.

2. The term of this Agreement shall take effect upon full execution of this MOU. The term shall continue in effect until modified or terminated by all Parties.
3. Any Party to this Agreement may withdraw from this Agreement by providing thirty (30) calendar days written notice to all other Parties to the Agreement.

RESOLUTION NO.: 166 - 2017

OF

JUNE 12, 2017

**A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF NEWBURGH
SUPPORTING PROPOSED STATE LEGISLATION TO ESTABLISH
TANKER-AVOIDANCE ZONES IN THE HUDSON RIVER**

WHEREAS, in June 2016, the U.S. Coast Guard announced that it was soliciting comments and concerns from the public on a proposal to establish a large number of anchorage grounds for commercial vessels in the Hudson River that commercial tankers would use as rest stops; and

WHEREAS, by Resolution No. 244-2016 of September 12, 2016, the City Council of the City of Newburgh announced its firm and unequivocal opposition to the proposed anchorages; urged the U.S. Coast Guard to conduct public meetings; and demanded further and additional information concerning the multitude of impacts the proposal would have on the City's environment, residents and economy; and

WHEREAS, by Resolution No. 72-2017 of March 13, 2017, the City Council of the City of Newburgh adopted the Hudson River Waterfront Alliance pledge to join in the collaborated efforts to examine the impacts of proposed anchorage sites, provide information to residents and stakeholders and to protect and preserve the interests of the Hudson River communities; and

WHEREAS, the City of Newburgh is home to a rapidly developing Hudson River waterfront, as well as a large historic district listed on the National Register of Historic Places and Washington's Headquarters Historic Site, both having majestic Hudson River views, which the integrity of these economic, historic and scenic assets are threatened by the U.S. Coast Guard's proposal; and

WHEREAS, the City of Newburgh has documented its concerns about the anchoring of petroleum-carrying tankers, including disrupting the economic vitality of the waterfront, endangering drinking water supplies, damaging fish habitat and detracting from scenic beauty and quality of life along the river as described in Resolution No. 244-2016 of September 12, 2016 and Resolution No. 72-2017 of March 13, 2017; and

WHEREAS, New York State Assembly member Didi Barrett has introduced Assembly Bill A06825, which would enable New York State agencies to consider environmental impacts in designating "tanker-avoidance zones"; and

WHEREAS, New York State Senator Sue Serino has introduced the same measure in the Senate as Bill S05197; and

WHEREAS, this proposal would enable New York State to take a stronger role in controlling the placement of any anchorage areas for petroleum-carrying vessels, to ensure that the needs of the Hudson River and riverfront communities are protected;

NOW THEREFORE BE IT RESOLVED that the City Council of the City of Newburgh expresses its support for Assembly Bill A06825 and Senate Bill S05197; and

BE IT FURTHER RESOLVED, that the City Clerk of the City of Newburgh, New York forward copies of this resolution to Assembly Member Frank Skartados, Assembly Member Didi Barrett, N.Y. Senator William Larkin, N.Y. Senator Sue Serino, the New York Conference of Mayors, Riverkeeper Campaign Advocacy Coordinator Jeremy Cherson and Scenic Hudson Advocacy Associate Rebecca De La Cruz.

Proposed Hudson River Anchorages

View from Palisades

Simulation

These floating parking lots jeopardize:

- Great strides communities have made in revitalizing their riverfronts.
- The region's scenic splendor, foundation of its \$5.2-billion tourism economy.
- Drinking water supplies drawn from the Hudson.
- Prime habitats for sturgeon and other imperiled fish species.
- Safe river access for paddlers and other boaters.

The U.S. Coast Guard (USCG) is considering a proposal to establish 10 new sites for 43 commercial vessels to anchor along the Hudson River between Yonkers, Westchester County, and Kingston, Ulster County. This proposal could turn over 2,400 acres of the river into new anchorages establishing huge "parking lots" for barges—in 42 out of 43 of the berths, vessels could sit for 30 days or more, letting companies store volatile crude oil awaiting shipment to East Coast refineries. Allowing these containers to anchor on the Hudson puts our natural resources, aquatic habitats and scenic views at risk. These vessels, which can hold up to 4 million gallons of volatile cargo, would increase the risk of spills, leaks, or explosions and jeopardize all of the progress Hudson River communities have made in revitalizing their waterfronts.

The USCG has not demonstrated that new anchorages are needed for navigational safety. In fact, vessels already have a mechanism to anchor in hazardous conditions. The only stated justification for this proposal is to facilitate the expected increase in shipment of crude oil on the Hudson River.

What has been done?

Over 10,000 comments were filed with the USCG, including letters from the Cuomo administration, the office of New York Attorney General Eric Schneiderman, and leading business organizations (including the Business Council of Westchester and the Hudson Gateway Association of Realtors). The USCG is in the process of going through those comments. If it decides to continue with the rulemaking process, the next step is to issue a more detailed Notice of Proposed Rulemaking. Public hearings are expected this spring.

What you can do

Ask your state Senator and Assembly member to co-sponsor bills (S.5197 and A.6825, respectively) that would enable the DEC to establish Tanker Avoidance Zones in the Hudson based on the presence of significant habitats and the concerns of waterfront communities.

- Senate switchboard: 518 455 2800; Assembly switchboard: 518 455 4100
- Ask your town, village or city to pass a municipal resolution in support of S.5197/A.6825. For a sample resolution, visit www.scenichudson.org/anchorages-resolution

Ask your Congress member to support the Hudson River Protection Act (H.R. 1504) introduced by U.S. Reps. Sean Patrick Maloney and Eliot Engel. It would prevent the USCG from establishing new anchorages within five miles of a nuclear power plant, sites on the National Register of Historic Places, a Superfund site or endangered species habitat.

- U.S. Capitol switchboard: 202 224 3121

- Proposed 31% cuts to EPA funding, including, among other things: a 45% cut in Categorical Grants to states for water protection programs; elimination of the \$427 million funding of the Great Lakes Restoration Initiative and other regional programs; a total estimated cut of \$1 billion in Office of Water programs; and

NOW THEREFORE, BE IT RESOLVED that the City of Newburgh hereby registers its deep concern over current rollbacks and threats to federal clean water protections as described above, affirms the need for sound, science-based water policy and for adequate regulation, enforcement and funding as pressure on water quality and safety continue to mount. MUNICIPAL LETTER IN SUPPORT OF HUDSON RIVER SLOOP CLEARWATER'S SAIL TO WASHINGTON, DC FOR CLEAN WATER AND ENVIRONMENTAL PROTECTION

Dear Administrator Pruitt and Members of Congress,

In 1970 Pete Seeger and the Hudson River Sloop *Clearwater* helped turn the tide in favor of enacting the 1972 Clean Water Act by sailing the *Clearwater* to Washington, DC and organizing an historic Capitol Hill forum on the need for federal clean water protections, where Seeger said,

"The problems of the American Rivers can't be solved by people . . . who live on them. Only the Federal Government has the power to enact and enforce the laws that are needed."

The Hudson River and many American waterways are much cleaner and safer as a result of the implementation of the Clean Water Act, as well as other state and national environment protection legislation and regulations.

Yet issues of serious water pollution still plague communities from Flint, Michigan to the Village of Hoosic Falls in New York.

A clean, safe and healthy environment is the cornerstone of a strong economy.

Existing federal clean water protections that have recently been rolled back or are coming under threat include:

- *The Stream Protection Rule, which previously protected waterways from surface coal mining pollution*
- *EPA rulemaking to "repeal and replace" the Waters of the United States Rule, which extended Clean Water Act protections to 60% of U.S. streams and 20 million acres of wetlands*
- *Proposed 31% cuts to EPA funding, including a 45% cut in grants to states for water protection programs, elimination of funding for the Long Island Sound Study and other regional geographic programs resulting in a total estimated cut of \$1 billion to Office of Water programs.*

Federal water protections and robust EPA regulation and enforcement are vital to the environmental health of New York's waterways and to the safety of its drinking water and climate change is also a water quality issue, already impacting New York's waterways and drinking water through more frequent and severe droughts and storms.

Flat-funding Federal grants will not allow States and municipalities to implement drinking and waste water infrastructure projects needed for their maintenance or remediation.

These issues and threats affect not only all New Yorkers, but all Americans.

The historic Sloop *Clearwater* will carry to Washington and deliver to federal officials a "cargo of concern" documenting the broad-based concerns of citizens, public interest groups, and municipal and state officials throughout New York about growing threats to our water and to federal clean water protections, and the need for sound, science-based water policy.

As elected officials from the [INSERT MUNICIPALITY/COUNTY] we would like to register our deep concern over current rollbacks and threats to federal clean water protections as described above, affirms **the need for sound, science-based water policy and for adequate regulation, enforcement and funding**. We also wish to express support for Clearwater's leading effort to carry our concerns and those of many New Yorkers for clean water and other environmental protections directly to Washington.

Thank you for your attention to this important matter.

Sincerely,

Re: Appointment of Malinda Ware to City of Newburgh Human Rights Commission

Background

On January 14, 1991, the City Council of Newburgh established the Human Rights Commission pursuant to the authority contained by Ordinance No. 3-91. On December 12, 2012 by Ord. No. 3-11-2012, it was amended in its entirety. A Commission on Human Rights was established pursuant to the authority contained in Article 12-D of the General Municipal Law.

On October 6 2005, the Human Rights Law was expanded to become the only human rights law in New York State to prohibit discrimination in both employment and housing against victims of domestic violence, sexual abuse and stalking. On June 4, 2007 the law was further expanded to provide for monetary damages in cases where there is a pattern and practice of discrimination; the award of punitive damages in all cases where the discrimination has been willful or wanton or malicious; and the assessment of civil fines and penalties in housing cases.

To protect the rights and privileges of all its inhabitants, the City Council passed the Human Rights Law. This law encompasses discrimination based on race, color, religion, ethnicity, creed, age, familial status, gender, marital status, sexual orientation and disability, in the practices of employment, in places of public accommodation, housing and the approval of credit.
