Subject: North Water Street Sewer Separation – Amendment to Construction Phases Services

Dear Mr. Morris,

Following the City's termination of its agreement with Metra Industries, Inc. (Metra), closeout documentation was not provided by the contractor. Since there were several changes made during construction due to unforeseen site conditions, Arcadis recommends completing an as-built survey to accurately document the constructed improvements. This survey will be used by Arcadis to prepare record drawings for the City's records.

To accomplish this, Arcadis will retain Badey and Watson Surveying & Engineering, D.P.C. to perform the as-built survey. The survey will capture the locations, inverts, and rim/grate elevations of all structures installed as part of this project. Arcadis proposes to complete the as-built survey for a lump sum fee of \$15,000.

We appreciate the opportunity to continue supporting the City on this project. If you have any questions or require additional information, please feel free to contact me at (518) 250-7300. Thank you again for your continued trust in Arcadis.

Sincerely,
Arcadis of New York, Inc.

Subject: North Interceptor Sewer Replacement – Amendment to Construction Phases Services

Dear Mr. Morris,

Pursuant to the City's request, Arcadis has prepared this correspondence to document the need for an amendment to complete the closeout of the North Interceptor Sewer Replacement Construction Project.

During construction, unforeseen subsurface rock conditions along the original sewer alignment in Ferry Crossing necessitated a realignment of the North Interceptor. This realignment enabled the City to avoid a costly change order, resulting in significant cost savings. However, the new alignment is located just outside the existing sewer easement, requiring the acquisition of a new permanent easement.

The City has requested the extinguishment of previous easements and execution of a new permanent easement. To facilitate this, Arcadis will retain Badey and Watson Surveying & Engineering, D.P.C. to perform the necessary easement computations and prepare a Permanent Easement Acquisition Map, including metes and bounds descriptions. Arcadis proposes to complete the above scope for a fee of \$11,000.

We appreciate the opportunity to continue supporting the City on this important project. Should you have any questions or require further assistance, please contact me at (518) 250-7300.

Sincerely,
